C150APM C04-082

150N Wireless AP/Bridge/Repeater

Get rid of your network cables. With this wireless access point you can either upgrade your existing wired network to a wireless network or use it as a bridge/client to make every product with a LAN port wireless. The wireless connection has a maximum speed of 150 Mbps. It is compatible with all Wi-Fi enabled devices using 802.11n (max. 150 Mbps), 802.11g (54 Mbps) or 802.11b (11 Mbps). You can use multiple access points in repeater mode to expand your wireless network even further. Optimal out-of-the-box security is ensured by the preconfigured WPA(2) (Wi-Fi Protected Access) setting. Other security features include WEP encryption and MAC filtering. Nonetheless it is very easy to connect to the secured network thanks to the integrated WPS (Wi-Fi Protected Setup) feature.

Highlights

- Transform your wired network into a wireless 150N network with the C150APM in access point mode
- Make every product with a LAN connection (e.g. Xbox360) wireless with the C150APM in client mode
- Expand the range of your wireless network even further with the C150APM in repeater mode
- Out of the box security thanks to pre defined WPA pass phrase + WPS button for easy setup and encryption

Orderinformation

Product Code :	C150APM
Order Code :	C04-082

In a Box :	10

C150APM C04-082

Specifications

Minimum system requirements

Connections / interfaces	Wired or wireless LAN; Wireless client

Features

Encryption/ Security	WEP 64; WEP 128; WEP 256; WPA; WPA2; MAC filtering
Supported networks	IEEE 802.3 10BASE-T; 802.3u 100BASE-TX; 802.3ab Gigabit copper
802.1X authentication	Yes
WPS	Yes
Number of antennas	1
Detachable antennas	Yes
DHCP-server	Yes
Supported protocols	DHCP
Connect button for easy connect	Yes
Autoswitching power supply	No
Led indicator	Yes

Performance

Supported max speed (wireless)	150Mb/s
Supported max speed (wired)	100Mb/s
